

DEEP  
BLUE

**Deep Blue Startup Studio**, also known as Venture Builders, is a dynamic venture-building firm that specializes in supporting early-stage startups on their journey from pre-seed to Series A. With a strong focus on building and scaling platform or marketplace startups across diverse industries, our mission is to empower founders to achieve remarkable commercial growth and make a significant impact in their respective markets.

**At Deep Blue Startup Studio**, we're **not** your ordinary **incubator, accelerator, agency, or VC**. We are **real co-founders and entrepreneurs**, accompanying you every step of the way through our joint adventure. Together, we'll navigate each chapter of your startup's journey and forge a path to success.

# db Story

## ● The Ambitious Beginning (2014)

Our remarkable journey began a decade ago in 2014 with a burning ambition to create our first groundbreaking application. As we encountered and overcame numerous challenges during its development, we realized that many other startups were facing similar obstacles. This realization inspired us to establish Deep Blue, taking inspiration from the legendary chess-playing machine that triumphed over chess champions in the 1990s.

## Tackling Hurdles with Determination

Throughout our journey, we have tackled countless hurdles with unwavering determination. Along the way, we have embarked on over 30 remarkable platform or marketplace projects, collaborating with our own ventures as well as esteemed partners and clients. However, we noticed that many of these promising projects faltered due to operational, marketing, and funding-related challenges.

## Transformation into Deep Blue Startup Studio

Motivated by our passion for innovation and an unyielding commitment to success, we have now transformed into Deep Blue Startup Studio. With this evolution, our aim is to become an integral part of success stories, working hand in hand with our clients and partners at every stage of their journey, from inception to exit.

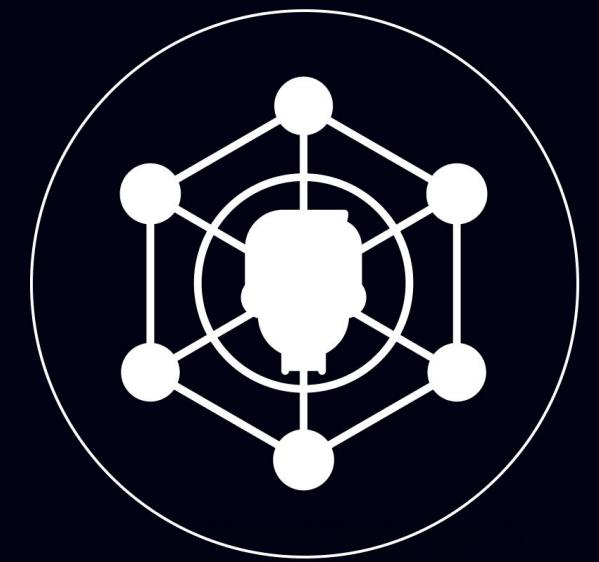

## Vision:

Our vision at Deep Blue Startup Studio is to create an ecosystem where startups thrive, driving innovation and making a lasting impact on industries.

We aim to be a catalyst for success, empowering founders to turn their dreams into reality and build remarkable ventures that shape the future.

## Mission:

Our mission is to comprehensively support startups at every stage of their journey, from inception to exit. Going beyond the traditional role of service providers, we become dedicated collaborators and co-founders. With our expertise, we help startups overcome operational, marketing, and funding challenges, unlocking their full potential for sustainable growth.

## Generate our own Ventures

We build startups that solve problems through an inhouse continuous, dynamic and selective ideation process. We secure financing to make sure our ventures can grow without barriers.

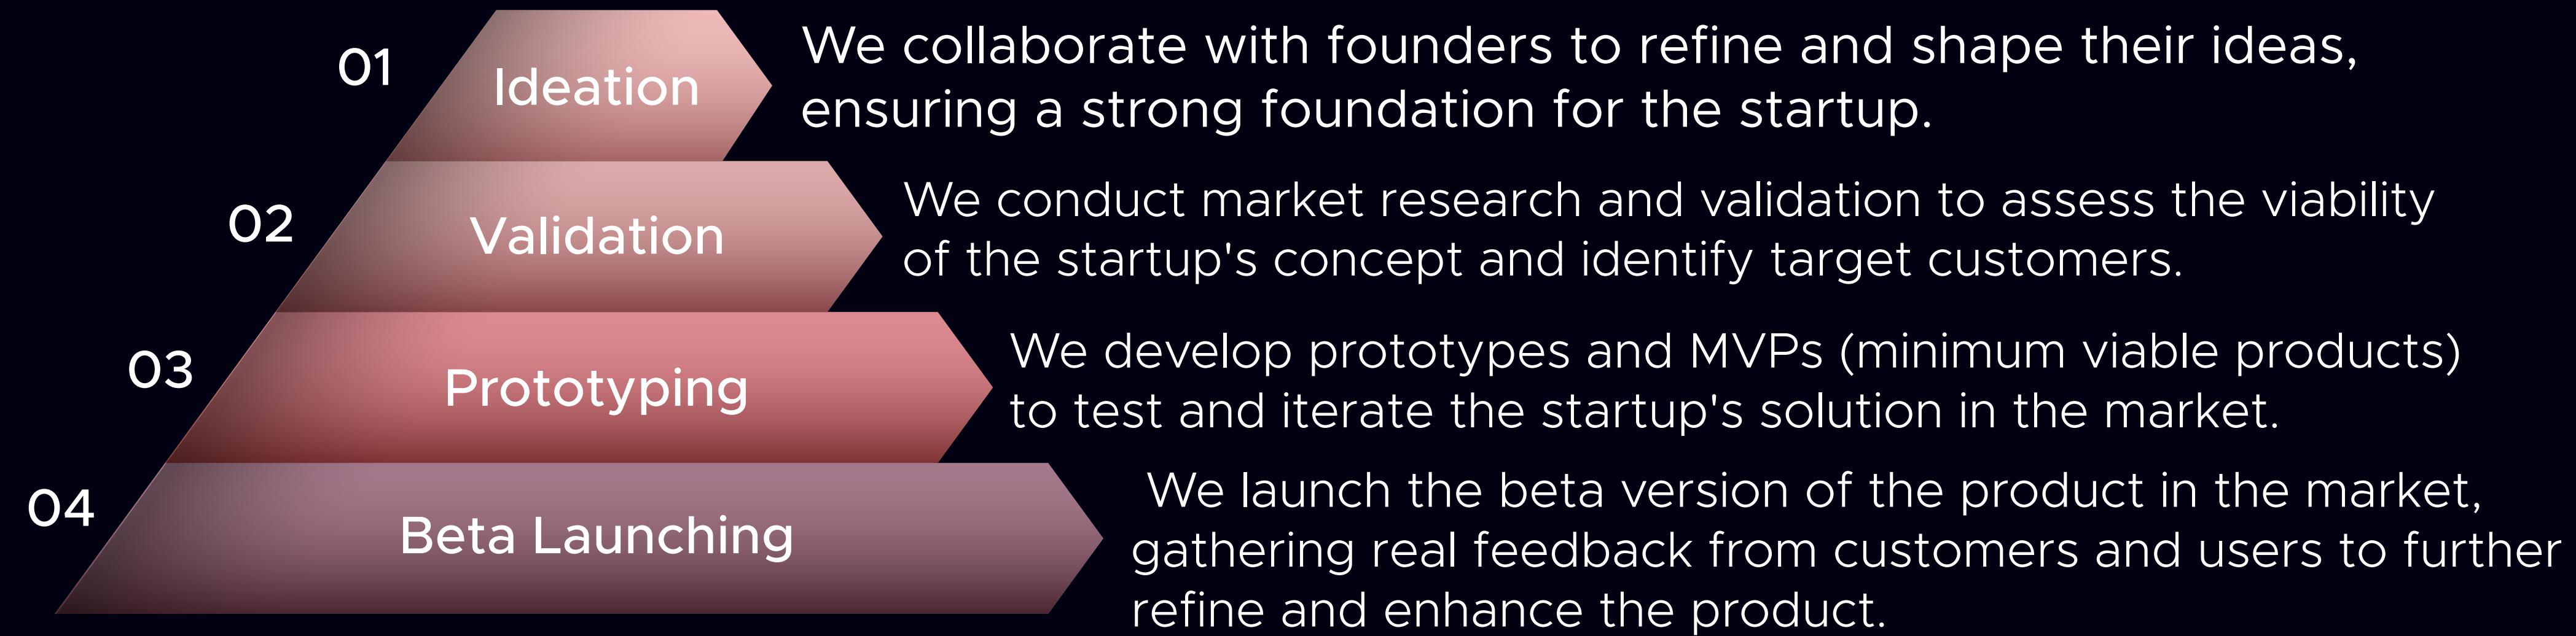

## Build Ventures With Partners

With our robust ecosystem we partner up with external entrepreneurs and other companies that have amazing ideas we can help them develop into successful and sustainable businesses.

# Our company building process revolves around 7 stages

At each stage of the company building process, we provide strategic guidance, expertise, and resources to empower startups and position them for long-term success.

# Our company building process revolves around 7 stages

At each stage of the company building process, we provide strategic guidance, expertise, and resources to empower startups and position them for long-term success.

05

Product-Market

We assist in achieving product-market fit by refining the startup's product offering based on customer feedback and market insights.

06

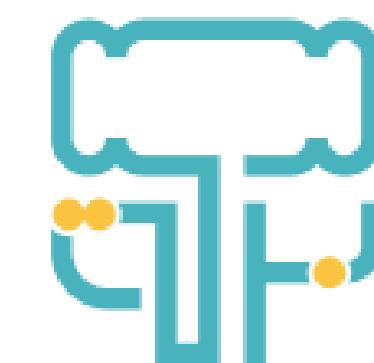

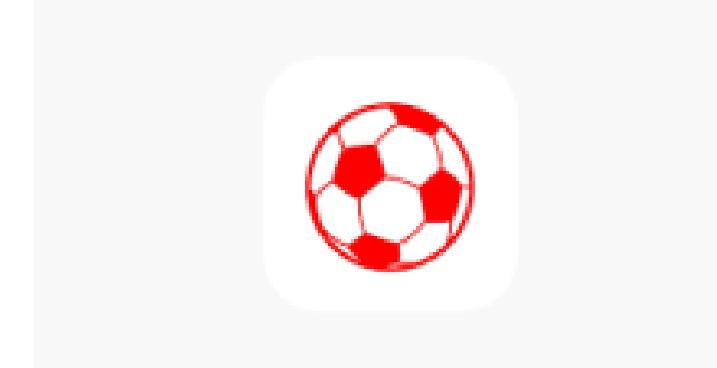

Scaling

We support startups in scaling their operations, expanding their customer base, and maximizing growth opportunities.

07

Exit

We help startups navigate exit strategies, whether through acquisitions, mergers, or other exit options that align with their long-term goals.

# db Team

At Deep Blue Startup Studio, our team comprises experienced professionals with diverse expertise in platform and marketplace startups. With a proven track record in building and scaling ventures, we work closely with founders as dedicated collaborators and co-founders. Our hands-on approach, strategic guidance, and extensive network empower founders to achieve remarkable growth and make an impact in their markets.
